

# Where Caring Comes First

Homelink, based in Whitton, is a respite centre offering family carers a much-needed break from their caring duties during the daytime.

Clients attend Homelink with a variety of conditions including Parkinson's, stroke, MS, mobility issues and those encountering social isolation. We are also specialists in dementia care.

Our purpose-built centre provides a happy and secure environment where people can enjoy the company of others while being cared for and supported. This gives their carers peace of mind and provides them with free time to take a break from what can be an exhausting and stressful daily routine.

Our team offer an enjoyable and stimulating day and a warm and friendly home-from-home atmosphere. In addition to our team of trained staff, we are fortunate to also have a team of committed and trained volunteers who help in various ways.

Our clients enjoy a variety of activities including discussion groups, games, quizzes, music therapy, entertainers, armchair exercises, reminiscence and creative pursuits. We offer refreshments throughout the day as well as a two-course freshly prepared hot meal. We have a lovely outdoor space where people can enjoy a cup of tea and chat with staff and volunteers in the warmer weather.

For more information or to arrange a visit, please contact Julie or Rachel on: 020 8255 1992.

Homelink Day Respite Centre, Hospital Bridge Road, Whitton, TW2 6DE

We are open Mon-Friday 10am-3pm.
